

ORGAN/KEYBOARD POLICY- SYCAMORE UNITED METHODIST CHURCH

(Keyboard is defined as piano or electric keyboard.)

August 26, 2008

1. If someone wishes another person besides our church organist to play for a wedding, funeral, or other occasion, please have the guest musician contact our church organist or music director for permission, and for instructions for using the instruments. This person will be allowed to practice the organ/keyboard as necessary. (See Paragraph 2 for times.)
2. We grant the privilege for students of the organ/keyboard and our substitute organists to use our instrument for practice. We ask that they schedule their practice time through the church office, and that this be limited to those hours when the church building is normally open, unless they make alternate arrangements. Such persons shall stop at the office when they arrive, and inform the office of their departure.
3. We encourage the use of the organ or keyboard for events such as student recitals. Please contact the church office and trustees for the current building use policy. A donation is recommended for upkeep of the instruments.
